

CLIFF RANDY D. CARCUEVA

FULL STACK DEVELOPER | REACT • NEXT.JS • TYPESCRIPT • NODE.JS

Davao City, Philippines | cliffrandycarcueva@gmail.com | +63 999 995 2843 | GitHub: github.com/cliffrandycarcueva | LinkedIn: linkedin.com/in/cliff-randy-carcueva-9b556975/

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 15+ years of professional software development experience building and maintaining enterprise web applications for local and international clients. Hands-on experience across frontend and backend development using React, Next.js, Angular, NestJS, Node.js, TypeScript, C#, and SQL. Experienced in frontend architecture, REST API development, database design, performance optimization, production support, code reviews, technical mentoring, and Agile/Scrum collaboration.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Angular, AngularJS, Redux, Tailwind CSS, HTML5, CSS3, Ant Design, Bootstrap, Bulma, jQuery Backend: Node.js, NestJS, REST API Development, ASP.NET, C#, VB.NET

Database: PostgreSQL, Microsoft SQL Server, MySQL, TypeORM, Database Design, Query Optimization

AI-Assisted Development: Claude Code, GitHub Copilot, OpenAI Codex, AI-assisted coding, code generation, code review

Engineering: Frontend Architecture, API Integration, Performance Optimization, Code Reviews, Technical Mentoring, Agile/Scrum, Git, Production Support

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer (Jairosoft Inc. | June 2024 – Present)

- Design and develop enterprise web applications using React, Angular, NestJS, TypeScript, and PostgreSQL.
- Leverage AI-assisted development tools, including **OpenAI Codex and Claude Code**, to accelerate development of reusable components, API endpoints, and frontend implementations.
- Use **Codex and Claude Code** to translate Figma designs into reusable, production-ready React/Next.js components while maintaining consistency with established UI patterns and coding standards.
- Integrate **GitHub Copilot** into the development workflow to assist with code reviews, coding standards, and pull-request quality checks.
- Build frontend interfaces and backend REST APIs following clean architecture principles.
- Participate in application architecture discussions and technical solution planning.
- Perform peer code reviews to maintain code quality, consistency, and engineering standards.
- Conduct technical training and mentor developers on Bubble and Sitecore technologies.
- Diagnose and resolve complex production issues while improving application reliability and performance.
- Collaborate with product owners, QA engineers, designers, and developers throughout the Agile software development lifecycle.

Frontend Developer (Jairosoft Inc. | June 2021 – June 2024)

- Developed and maintained enterprise web applications using AngularJS, jQuery, HTML, CSS, and JavaScript.
- Integrated REST APIs with frontend applications to deliver dynamic user experiences.
- Maintained legacy applications while implementing new features and resolving production issues.
- Participated in code reviews and application testing to support software quality.
- Collaborated with backend developers, QA engineers, and project stakeholders throughout development.

Frontend Developer (Lemontech IT Solutions | October 2019 – June 2021)

- Built modern React applications using Redux and Ant Design.
- Developed reusable UI components to improve maintainability and consistency.
- Optimized frontend performance and responsiveness across multiple browsers.
- Collaborated with cross-functional teams throughout software development projects.
- Conducted code reviews and assisted in improving development standards.

Web Developer (Nutnull IT Solutions | September 2018 – October 2019)

- Developed Angular-based enterprise web applications and responsive user interfaces.
- Debugged production issues and optimized existing application features.
- Worked with project teams to implement business requirements.

Web Developer (DSLCL Data Support Inc. | November 2016 – April 2018)

- Developed ASP.NET and C# business applications.
- Designed and maintained SQL database features and reusable application modules.
- Assisted with system enhancements and production support.

Web Developer (Lanes Systems Inc. | September 2014 – August 2016)

- Developed enterprise applications using ASP.NET and VB.NET.
- Provided application maintenance and technical support.
- Resolved production issues while improving system stability.

Junior Software Developer (Exerius International Ltd. | July 2011 – July 2014)

- Developed and maintained ASP.NET applications.
- Assisted senior developers throughout the software development lifecycle.
- Fixed software defects, supported feature enhancements, and addressed client requirements.

EDUCATION

Bachelor of Science in Information Technology — STI College Davao, 2011
